BURIAL PACKAGES

At Brown Legacy Memorial, we understand that losing a loved one is one of life's most difficult moments. We are here to offer support, compassion, and transparency—no pressure, no gimmicks—just the help you need to honor your loved one's life with dignity.

When selecting one of our “**Packages**”, you are choosing a comprehensive and complete service designed to provide peace of mind while respecting your budget.

We understand that families may need cost-effective solutions, so our packages are thoughtfully created to include everything required for a complete service. Some packages may have limitations such as specific days, times, or locations, but each option adds value through inclusive services and features that save you money while providing exceptional care.

If you choose not to use a package, you are welcome to select services individually from our General Price List. However, please note that modifying packages or using caskets from other vendors may affect the package pricing.

NOTE Our packages do not include additional fees for individuals classified as **oversized**. An additional charge will apply for oversized caskets, or any other necessary accommodations based on an individual's size, weight, and height. Please speak with our staff for further details.

Vault and cemetery costs are not included in package pricing, as they vary by provider and location and are subject to change based on cemetery regulations.

To further assist families, we have identified local cemeteries, in the area, with affordable burial space options and guidance for opening and closing graves. We will be preparing that for your convenience soon...please check back...
